

Plastron Catalog Parts on Cosmocorp.com

Cosmo Corporation is pleased to announce a dramatic expansion of our standard coil bobbin and component catalog, including the addition of all standard Plastron catalog parts. Over 500 new parts have been added and new bobbin categories have been created for standard ferrite core bobbins, headers and bases, and intermediate frequency (IF) bobbins.

Detailed part specifications and drawings are available online at www.cosmocorp.com. Search by:

- [Cosmo part number](#)
- [Plastron part number cross reference](#)
- [Bobbin type / category](#)
- [Bobbin lamination / core](#)

Then request pricing or free samples online.

With more than 4300 standard parts to chose from, the Cosmo coil bobbin and component catalog offers the world's largest selection of industry standard bobbins, many shipping direct from stock. Avoid the need for custom tooling with an off-the-shelf solution that meets your exact dimensional, mechanical and electrical property requirements.
