

## REACH Compliance Statement

---

In December 2006, the European Union passed the **Registration, Evaluation, Authorization and restriction of CHemicals** (REACH) regulation governing the production, use and importation of chemical substances.

As of January 16, 2009, none of the Articles manufactured or supplied by Cosmo Corporation contain any Substances of Very High Concern (SVHC) or substances intended to be released. Moreover, the Articles manufactured or supplied by Cosmo do not require registration.

Cosmo is working with its suppliers to ensure that they are familiar with the REACH regulations, and are in compliance with its requirements.

Cosmo Corporation is committed to meeting customer requirements and expectations, including compliance with all applicable environmental standards and directives. As the REACH regulations continue to evolve, we will monitor the requirements and take appropriate actions as required.

If you have questions regarding Cosmo's REACH compliance or our products generally, please contact us.
